## **FOR IMMEDIATE RELEASE**

### **CTS Hosts COVID-19 Vaccination Clinic**

Coordinated Transportation Solutions, Inc. (CTS) was pleased to sponsor a community COVID-19 vaccination clinic hosted at its headquarters in Trumbull, CT on April 7. The clinic was arranged for CTS' Connecticut-based employees and family members as well as other tenants in the office building. CTS partnered with Griffin Health Services of Derby to offer the clinic and would like to recognize Griffin Health Services for their help in organizing the day and their staff, who administered more than 180 doses of the Pfizer vaccine during the one-day clinic. We also want to thank Bob Scinto and the R.D. Scinto organization for donating space in their building for the clinic. A follow-up clinic for the second dose of the Pfizer vaccine will be hosted on April 28 at the Trumbull headquarters.

Throughout this pandemic, CTS has prioritized the health and safety of its staff and surrounding community. We have worked with multiple partners to coordinate transportation to COVID-19 vaccination appointments across our multi-state service area for the at-risk populations we serve. We were happy to collaborate with Griffin Health Services to offer the vaccine to our own staff. Griffin has made it their mission to increase the availability of vaccines throughout the region.

“It was a tremendous pleasure to work with Griffin Health Services to provide the opportunity for COVID vaccination to CTS employees, their families and the rest of our neighbors in our facility. We thank them and look forward to hosting another successful vaccination clinic for everyone’s 2<sup>nd</sup> dose later this month,” noted David White, President & CEO of CTS. “Griffin Health Services provided a very well organized and highly professional medical staff to administer vaccines and provide required short-term monitoring following the vaccination. I heard from many who received their dose that they *‘didn’t feel a thing’* and are looking forward to getting their 2<sup>nd</sup> dose.”

### **About Coordinated Transportation Solutions, Inc.**

As a nationally recognized leader in non-emergent medical transportation services, Coordinated Transportation Solutions, Inc. (CTS), headquartered in Trumbull, Connecticut, is a not-for-profit 501(c)(3) organization dedicated to its mission of increasing the availability of cost-effective and efficient transportation services to vulnerable populations and communities. With more than twenty-four years of experience and a national reputation for exemplary customer service, CTS currently manages more than 2 million trips annually for government agencies, health plans, health care facilities, school districts, not-for-profit organizations and injured workers’ programs throughout the Northeast and MidAtlantic States. CTS utilizes a customer-focused holistic approach, state-of-the-art technology, deep contractual and programmatic compliance experience and quality assurance practices to provide the highest level of customer care.
